Education

Editor-in-Chief: Zenon J. Pudlowski
UNESCO International Centre for Engineering Education (UICEE)
Monash University, Melbourne 3800, Australia

UICEE Partners

Aalborg University
Aalborg, Denmark

Altai State Technical University
Barnaul, Russia

Anna University
Chennai, India

Caledonian College of Engineering,
Muscat, Oman

Chinese Culture University
Taipei, Taiwan

Gdynia Maritime University
Gdynia, Poland

Glasgow Caledonian University
Glasgow, Scotland, UK

Hochschule Wismar – University of
Technology, Business & Design
Wismar, Germany

Hyderabad (Sind) National
Collegiate Board, Mumbai, India

Instituto Tecnológico Y de Estudios
Superiores de Monterrey - *Tec de
Monterrey*, Monterrey, Mexico

Kigali Institute of Science,
Technology & Management
Kigali, Rwanda

King Mongkut's University of
Technology Thonburi
Bangkok, Thailand

Lucian Blaga University of Sibiu,
Sibiu, Romania

Maharashtra State Board of Technical
Education, Mumbai, India

National Changhua University of
Education, Changhua, Taiwan

Ryerson University
Toronto, Canada

Silesian University of Technology
Gliwice, Poland

St Petersburg Electrotechnical
University, St Petersburg, Russia

Tomsk Polytechnic University
Tomsk, Russia

University of Science & Technology
Houari Boumediene
Algiers, Algerai

Papers published in the World Transactions have undergone a formal process of peer review by international referees.

This Journal is copyright. Apart from any fair dealing for the purpose of private study, research, criticism or review as permitted under the Copyright Act, no part may be reproduced by any process without the written permission of the publisher.

Responsibility for the contents of these articles rests upon the authors and not the publisher. Data presented and conclusions developed by the authors are for information only and are not intended for use without independent substantiating investigations on the part of the potential user.

Contents

Z.J. Pudlowski	Editorial	5
S.K. Esche, C. Chassapis, J.W. Nazalewicz & D.J. Hromin	An architecture for multi-user remote laboratories	7
L.F. Capretz	Connecting to engineering students in the classroom	13
D.Q. Nguyen & Z.J. Pudlowski	Should standardisation or diversity be embraced in the development of future engineering education curricula?	19
S.J. Hadjileontiadou & L.J. Hadjileontiadis	Efficient tracking of Web-based collaboration dissonance using Quality Control Analysis (QCA)	25
M.E. Gorman, B. Allenby, M.M. Mehalik & K. Hall	Earth Systems Engineering Management: a course for students from multiple disciplines	29
L.F. Capretz	Improving the teaching of software engineering	33
J. Rhee	Teaching efficacy of Web-based teaching methods in an undergraduate thermodynamics course	37
M.C. Court, L. Tung, R.L. Shehab, T. Reed Rhoads & T. Ashford	An adaptable learning environment that is centred on student learning and knowledge resolution	41
G. Pour	Component-based development refining the blueprint of software engineering education	45
K-F. Berggren, D. Brodeur, E.F. Crawley, I. Ingemarsson, W.T.G. Litant, J. Malmqvist & S. Östlund	CDIO: An international initiative for reforming engineering education	49
S. Lehto	Restructuring engineering education for the 21 st Century	53
I.T. Sarafis	Employment trends for engineers in Greece: a multidisciplinary survey	61
B.D. Moulton, V.L. Lasky & S.J. Murray	The development of an environment for remote embedded systems: feedback from students and subsequent enhancements	65
W.Y. Du	A mixed learning approach in mechatronics engineering	69
K.W.M. Siu	A new learning environment for social change: the engineering and product design learning environment in Hong Kong	73
M. Bell, C. Schrier, M. Muste & W.F. Krajewski	The University of Iowa's International Perspectives in Water Resources Planning programme	79
M.C.G. Silva, M.L.O.S. Mateus & J.M.S. Cruz	Teaching kinematics and mathematics with a radio-controlled scale car	87
J.W. Joubert & D. Steyn	Operationalising operations research	91
D. Maples and Y. Li	Real and simulated control laboratories: a case study via the <i>foot spa</i>	95
R.B. Ward	It is about time	99
A.V. Valiulis	Information technologies in the service of science and studies development	103

A.S. Patil & Z.J. Pudlowski	Instructional design strategies for interactive Web-based tutorials and laboratory procedures in engineering education	107
R. Gürbüz	The usage of the Internet in the development of education programmes: a case study in Turkey	111
B. Younes	Faculty evaluation: towards a happy balance between competing values	117
C-Y. Chao, W-C. Liao, F.E. Chien & Y-L. Huang	Construction of a competency analysis model for vocational high schools	121
D.J. Durbin & S.L. Bowen Franz	The development and delivery of a three-week study abroad programme in construction science	125
C-M. Chung	The study of constructing a knowledge innovation model in an electrical engineering department at an institute of technology	129
P.W. Magoha & A.A. Alugongo	A framework for the delivery of a competitive undergraduate training programme in mechanical engineering: a JKUAT case study	135
O.B. Shamina, V.F. Karashev & P.F. Korobko	Design methods as a taught course at the Tomsk Polytechnic University	141
M. Makgato	Students' viewpoint on the importance of industry partnerships in engineering and technology teacher training	145
S.L. Bowen Franz	The Mathematics-Physics Learning Centre: a supportive service for engineering technology education	149
S. Hadhiswoyo	Lecturing experiences in Urban Drainage: a curriculum in a civil engineering department and the student results	153
S. Kolari & C. Savander-Ranne	A materials engineering lecture course with a more active and responsible role for students	157
