World Transactions on Engineering and Technology Education

Editor-in-Chief: Zenon J. Pudlowski
UNESCO International Centre for Engineering Education (UICEE)
Monash University, Melbourne 3800, Australia
Contents

Z.J. Pudlowski  Editorial  5
D.E. Jansen  Intercultural communication in engineering: a research programme to investigate the cultural influences in the negotiation of engineering projects  7
G.I. Swan, D. Veal & S.P. Maj  Measurement and observation inside a PC  13
A. Olszewski & Z.J. Pudlowski  Urban Design and Education Programme: its significance and achievements as they relate to local and international frameworks  17
M.J. Riemer  Investigation into the development of English and communication skills for the modern engineer: a research scheme  23
F.K. Fink  Problem-Based Learning in engineering education: a catalyst for regional industrial development  29
S. Grünwald & Z.J. Pudlowski  Double degree programmes in engineering with business, commerce, economics and related fields offered by Australian universities  33
Z. Mbanguta  Towards a new engineering education policy for South African Further Education and Training (FET) colleges: easy articulation to universities and technikons and recognition by the Engineering Professional Council of South Africa  39
M.S. Zywno  Attitudes of engineering faculty towards technology-assisted instruction - a polemic  47
D.Q. Nguyen  Searching for a global model for environmental engineering education  51
B.C. Pochopień, J. Barglik & R. Sosnowski  An American-Polish postgraduate studies training programme for top managers  57
R.K. Duggins  Financial support for technology education  61
A.C.C. Tan, G.D. Paterson, J. Mathew & M. Dunbabin  Visualisation of vibration mode shapes to assist students in the learning of mechanical vibrations  65
A.S. Patil & Z.J. Pudlowski  The design and development of interactive Web pages using the HTML editor for computer-based comprehensive self-study procedures in basic electrical engineering  69
B.K. Temple & C.U. Chisholm  The role of entrepreneurship in the engineering curriculum  75
J.C. Burguillo, M.J. Fernández, F. Buendía & J.V. Benlloch  Experiences with Internet-based distance education  81
R. Devon & J. Liu  Global change and the management of engineering education  85
K-C. Chu & P. Lai  How can engineering students’ problem solving skills be improved?  91
E. Kukla, N.T. Nguyen & J. Sobecki  The consensus-based tutoring strategy selection in CAL systems  95
U. Vandebona & M.M. Attard  A Problem-Based Learning approach in a civil engineering curriculum  99
K. Al-Reshaid & N. Kartam  Guidelines for instructors on Web-based construction education  103
A.V. Valiulis  Access of disabled people to engineering education  107
